

Roundhouse Aquarium Summer Science Beach Camp

Top 5 reasons to check out our better than ever camps:

- We are the only science and beach camp in Manhattan Beach.
- We are the only camp on the beach with indoor facilities, so just enough sun and no rain!
- CPR/First aid certified staff at **all** activities and all water activities done in front of LA County Lifeguard tower.
- Save when you sign up siblings or for multiple weeks.
- Average 3 campers per counselor, Maximum of 5 campers per counselor.

**Easy online registration available - go to www.roundhouseaquarium.org/summer-camp
Space is limited! Early Bird Registration: \$5 off if you register before April 15th!**

You may have heard that the Roundhouse is currently undergoing renovations. We are hopeful that we will be open to have Summer Camp in the NEW Roundhouse! However, if opening is delayed, we are prepared to have camp in our temporary facility near the base of the pier.

- ✦ drop off and pick-up at the base of the pier
*subject to change during pier events
- ✦ snacks provided
- ✦ 1 t-shirt included (extras available for \$10 each)

Activities will vary each week. Activities may include: digging for sand crabs, playing in the waves, dissecting squid, learning about sharks, having water fights, building sand sculptures, coke explosions, making crafts, building a recycled boat, doing experiments, touching live animals, shooting a lemon cannon, playing beach games, and more!

✦ A schedule of what activities will be done each week is available on our website:
www.roundhouseaquarium.org/summer-camp

*for all weeks: a list of what to bring and what to expect will be emailed upon registration
