MANAGED BY OCEANOGRAPHIC TEACHING STATIONS, INC.

ROUNDHOUSE AQUARIUM SUMMER SCIENCE BEACH CAMP 2024

WEEK 5 | July 22th– July 26th

DROP-OFF TIME: 8:50AM – 9:10AM

PICK-UP TIME: 11:50AM – 12:10PM

WHAT TO BRING EACH DAY:

Please have the following items in a backpack or bag that your child can carry on their own. For sanitary reasons, counselors will not be able to carry campers' bags for them.

*We strongly suggest your child come to camp **ALREADY** wearing a swim suit each day. We try to conclude camp at the beach every day.*

- Bring a mask in your backpack
- Hand sanitizer
- Water Bottle (Multiple would be advised on hotter days)
- Snack
 - Because of Roundhouse policies since 2021, we **WILL NOT** be providing snacks.
- Hat
- Towel
- Wear sunscreen, even on cloudy days
- Dress in layers for the cool morning marine layers
- Camp t-shirts are highly recommended each day. We use these shirts to identify campers.
 - Extra camp shirts can be purchased for \$20 each.

SAFETY GUIDELINES FOR 2024

All health and safety protocols are subject to change as new information and health guidelines from the state and county are made available. We will alert you at this email address with any changes as they occur.

- Staff First Aid kits include extra masks, hand sanitizer, gloves etc. Your child will be expected to apply their own sunscreen throughout the day. Staff will assist to apply if using spray sunscreen. Please make sure your child is already wearing sunscreen when they arrive to camp in the morning.
- Any "shared" materials (beach toys, etc.) will be sanitized between groups.
- Social distancing will be maintained as much as possible.
- When in the water, water safety is our top priority. All groups will have beach days together to ensure the maximum number of counselors on the beach.
- Please help keep everyone healthy by conducting a self-health check at home with your child before camp each day.

ROUNDHOUSE AQUARIUM TEACHING CENTER

MANAGED BY OCEANOGRAPHIC TEACHING STATIONS, INC.

- Do NOT bring your child to camp if they, anyone in your household, or someone you have recently been in contact has tested positive for Covid.
- Please keep campers home if they are feeling unwell, even though they may test negative for covid
- Campers will be reminded to observe basic hygiene practices, including use of hand sanitizers, avoiding touching their faces and covering their sneezes and coughs.
- All campers **must** be completely proficient in restroom procedures – staff **will not** be permitted to help with any part of the process, including hand-washing.
- Campers will not be permitted to share snacks, toys, books, etc.

THIS WEEK'S SCHEDULE:

**Camp lessons will rotate between groups and may not be in the order below to ensure social distancing and safety protocols.*

Group A + B Rotations

Sharks are Friends It's a great day to look for sharks! While we keep an eye out, it's also a great time to answer some shark-related questions! Like, why do sharks have so many teeth? Or, what makes a shark different than other fish? What on EARTH are dermal denticles?!

Let's Get Sandy Sand is everywhere! In our hair, our towels, and even our bathing suits! Time to learn about where our sand comes from and how we can use it for fun!

Be an Aquarist Being an aquarist can be hard work; the job can quickly get spiny, smelly, and splashy! Today our campers will see what it's like to be an aquarist, and help our aquarium's aquarists out!

Algae is Awesome Dive deep into the sea and explore the micro world of plankton and then explore the vast "plants" of the sea. Campers will learn how plankton can be collected off of the pier and how seaweed is more than a washed up, smelly tangled mess, covered in kelp flies!

Waves of Fun Today, we'll learn about waves and the best place to surf. We will head down to the beach for a day of fun in the sun, on the sand, and in the water.
